## We're Stronger Together

Relationships take work. Sometimes things go smoothly, sometimes not so much. But a winning relationship—like the one between Federated and your association—is worth the effort. The result? A solid partnership built on a foundation of mutual respect. That partnership has one primary goal: helping you build the business you imagined.

Visit [www.federatedinsurance.com](http://www.federatedinsurance.com) to find a representative near you.

The Builders Supply Association is a full-time fully staffed trade association, representing suppliers to the construction industry in West Virginia.

Here are some of the Association's services:

- Legislative representation on the state and national level
- Analysis of proposed bills; working in the interest of all dealers and producers in the state
- Acquainting the public, industry and government with the functions, facilities and services available from the building material dealer and ready mix concrete producers
- Establish and maintain a better relationship between the retailer, the wholesaler and the manufacturer
- Information and consulting on governmental rules and regulations
- Programs and schools designed to improve employee efficiency
- Informative Bulletins assisting members in keeping in touch with events affecting their businesses
- Various office forms custom printed for their businesses at a substantially reduced cost
- Life, dental, vision and weekly income insurance offered at a group rate
- Annual Convention providing members the opportunity to network and meet new members
- Unemployment compensation and workers compensation assistance and service
- Drug testing consortium

# OBJECTIVES OBJECTIVES

## OF THE BUILDERS SUPPLY ASSOCIATION OF WV

1. TO SPEAK with a single, strong resolute voice to all levels of our governments including local, state, federal and their various agencies.
2. TO PROMOTE the general sale and expanded use of the industry's products and services.
3. TO CONTINUALLY train and instruct the member personnel at all levels in product knowledge, basic skills, management techniques, and improved marketing methods through seminars, clinics, workshops and conferences.
4. TO COLLECT AND DESSIMINATE desired information relating to marketing, credit, operating, finance, and distribution of other primary facets of the industry's business.
5. TO WORK with members, educational institutions, other federated or national associations or other interested organizations to establish and maintain satisfactory standards of product quality and performance.
6. TO SERVE as a clearinghouse for solving problems of mutual interest to members of the industry and allied industries.
7. TO ACT as public relations counsel for the industry's affairs and interests.
8. TO PROMOTE the personal acquaintances of members to learn from each other through social as well as business involvement.
9. TO PROMOTE high standards to business ethics among the industry's members in order to increase its prestige in the business community as well as those whom it serves.
10. TO collectively and individually stand up for our country and its leaders through sincere interest and responsible involvement in its affairs.

## Builders Supply Association of WV **Safety Works! Program**

### **Program Guidelines** “How does the program work”?

**Step 1-** Your company shall establish a safety coordinator to oversee the program and maintain company records (no member company records shall be maintained by the BSA). Along with the coordinator, team leaders shall be established to conduct the weekly safety meetings (this person may be a member of management or a lead/mentor employee who sets the standard for others to follow.)

**Step 2-** Each week (Wednesday) via email the safety coordinator as well as the team leaders shall receive from the BSA office all information and topics necessary to conduct the weekly meeting (additional copies for each attendee shall be made at the members site). The team leaders shall then have one week from the date received to log their meeting completion notice with the respective company coordinator. This one week period allows time to schedule around peak production times.

**Step 3-** Once monthly a video/power point meeting will be offered, should the company not wish to receive a video/power point topic it will be replaced with an additional print topic.

**Step 4-** The BSA shall provide a binder for the Safety Coordinator to maintain all records of prior meetings once received from each team leader.

**Step 5-** The BSA shall conduct a safety review of all requested sites annually for the member companies. The review shall be based on OSHA regulations and upon completion a comprehensive report shall be given. Please remember to copy of the report you shall be given will be the only one in existence, no copies or documentations shall be kept by the association, so do not lose it. The enrollment fee will cover the review of a single site; additional sites may be conducted at the members request and shall be billed at an additional cost.

**Step 6-** As an “add on” the BSA at your request shall conduct as “OSHA Site Visit” at one or multiple sites annually to evaluate both your site conditions and safety practices. This service shall be offered at an additional cost to the initial program and shall be based on a per site cost. At the end of the review a complete report shall be supplied, please remember as with all record keeping practices of the program the report shall be the only one in existence therefore it may not be duplicated at a later time should it be misplaced.

**Step 7-** The plan shall be reviewed annually by the Board of Directors and changes shall be implemented as needed.

**Step 8-** Please list any questions or concerns you may have prior to enlisting in the program. This works in progress, and will only be as successful as you make it.

If you wish more information and cost of the Safety Works Program please contact the BSA office at 304-342-2450.
